

CASTELMONTE

Le grandi stufe italiane

Marilyn Pellet Hybrid

Maximum thermal capacity	19 kW
Maximum capacity to the water	13 kW
Maximum capacity to the air	6 kW
Dimensions (mm.)	565 x 570 x 1160
Net weight	198 kg
Pellet tank capacity	20 kg
Water tank capacity	17 lt.
Pellet consumption (min.-max.)	1,0 – 3,8 kg/h
Run time (min. – max.)	5,2 – 20 h
Electric power at the ignition	300 W
Electric power at the operation	100 W
Suggested / maximum pressure	1,2 / 2,5 bar
Pump head	7 mt. water gauge
Fuel	Pellet (diam. 6 mm.)
Exhaust pipe	Diam. 80 mm.
Control and setting	Display on the unit
Automatic combustion control	Eco Control

CE 13		CASTELMONTE srl Via Vicinale di Parabiago 14 20014 Nerviano (MI) ITALIA
Technical specifications as per standard EN 14785:2006		
Model: Marilyn Pellet Hybrid		
Thermal capacity (water – air)	nominal: 13,5 KW (8,0 KW – 5,5 KW)	minimum: 6,5 KW (2,8 KW – 3,7 KW)
CO measured (at 13% of Oxygen)	nominal: 0,011%	minimum: 0,029%
Efficiency	nominal: 88,2%	minimum: 89,7%
Average fumes temperature	nominal: 185 °C	minimum: 118 °C
Maximum water pressure	2,5 bar	
Maximum electric Power Absorption	300 W	
Nominal Voltage and Frequency	230V – 50 Hz	
Minimum safety distance from inflammable materials	side: 20 cm.	rear: 20 cm.
This pellet stove is suitable for continuous operation		
Only use recommended fuel!		
Read and follow the operating instructions!		
This pellet stove cannot be used on a shared flue
